

**Bring your panels to max power !**  
Ultimate and Economical Solution to clean your panels

## About CleanX

- According to a survey, any kind of Dust, Sand or Dirt on surface of Solar Panel can decrease your energy generation by 30%. Thus Eco Green Solar has come up with a perfect solution - CleanX, the solar panel cleaning unit !  
Thus we make sure you don't need to climb your roof again and worry about cleaning your panels.

## Benefits

- Material - U-PVC
- Life More Than 10 Years
- Easy Operation & Installation
- Maintenance Free
- Increase Solar Electricity Generation.
- Saves Labour & Money (No need to hire any cleaning services)
- Saves your valuable Time
- Safety (Eliminates the risk of cleaning risk at higher altitude)

## Operations & Maintenance

- It is optimal to use CleanX units daily, preferably early in the morning. In morning the surface of solar panels is wet and covered with dew. Thus enabling CleanX units to clean solar panels uses less amount of water.
- Using a proper water source is crucial. Water containing high concentrations of Bicarbonate, Calcium, Magnesium and salts might create sediments in the long run. Adequate water treatment recommended to reduce water hardness

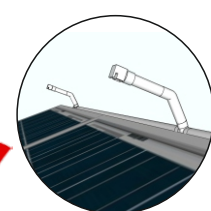

**Before Cleaning**

**After Cleaning**

### Technical Specification

FLOW RATE (Liters / Min.) VS. PRESSURE

Nozzle ID (mm)	Pressure (bar)*		
	0.5	1.0	2.0
3	6	8.2	11

Nozzle Spray Angle - 170 Degree

\* We recommend use of 2 Bar Pressure for optimal results

**Head Office:**  
304, Pragati Complex,  
150 Ft Ring Road,  
Near Giriraj Hospital,  
Rajkot - Gujarat - India  
Pin Code : 360 005

**Works:**  
G-2016, GIDC Lodhika,  
Almighty Gate, Road:L,  
Near Minimatic Machines,  
Metoda - 360 021  
Rajkot - Gujarat - India
